

RESONANCE rooted in the heart | 2026

Exploring human potential through heart-centered awareness
aligned with sacred geometric structures.

Small islands of coherence possess the capacity to lift an entire system.

“When a system is far from equilibrium, small islands of coherence in a sea of chaos have the capacity to lift the entire system to a higher order.” — Ilya Prigogine (Chemist, Nobel Laureate)

Bridging ancient knowledge with heart coherence and modern measurements.

Across cultures, pyramids and sacred sites—often located along **telluric ley lines** and underground water currents—have been understood as natural amplifiers of human intention and coherence.

While such insights originate in ancient traditions, recent advances in **heart coherence research**, **HRV analysis**, and environmental measurement now allow these effects to be studied more systematically.

This initiative seeks to observe correlations between collective coherence practices and measurable health, environmental, and social indicators, using innovative and transparent research protocols.

Pilot data reveals an exponential amplification of bio-energetic indicators.

Building on four years of international pilot experiments (2022–2025).

The Bosnian Pyramids Summer Solstice Experiment 2025

Demonstrated an unprecedented **1100% increase** in measured bio-energetic indicators (BSC units).

This initiative represents the first professionally coordinated, large-scale national experiment of its kind.

India serves as a global prototype for large-scale coherence.

India offers a unique convergence of scale, tradition, and readiness:

Unparalleled Infrastructure:

A living network of Pyramid-based communities facilitated by Quantum Life University, Pyramid Spiritual Society Movement (PSSM) and Pyramid Valley International.

Deep-Rooted Traditions:

Millennia of practicing heart-centered meditation, breathwork, and structured coherence practices.

Scientific Resonance:

A strong, established resonance between ancient wisdom traditions and emerging consciousness & quantum science.

A global collaborative ecosystem backs this scientific initiative.

**Quantum Life University
(India) – Dr. Newton
& Dr. Lakshmi**

**Pyramid Spiritual Society
Movement (India) –
Shreans Daga**

**Foundation for Peace, Harmony
& Good Governance (India) –
D.R. Kaarthikeyan**

**Consciousness Studies Lab
(India) – Anil Sinha Ph.d &
Dr. Sangeeta Nehra Ph.d**

**Global EcoVillage Network
(Worldwide) – Amena Bal**

**UnitingPeople Europe &
Pyramid for Light Foundation
(Philippines) – Marika Verheijen**

**Fred Foundation & Essentia
Foundation (Netherlands)
– Aartjan Bontje**

**Global Pyramid Network
(USA) – Marta Thomas**

**HeartMath Institute &
Global Coherence Initiative
(USA) – TBD**

An integrated matrix of science, geometry, and community

The project integrates four essential pillars:

Contemporary heart coherence science

Environmental field measurement

Ancient, sacred geometry knowledge

Community participation

A structured approach to measuring multidimensional impact.

Purpose:	Objectives:
To explore how personal and collective heart coherence, consciously cultivated and synchronized with sacred geometry sites, enhances: • Individual and collective wellbeing & health • Social harmony and peace-building • Environmental and planetary coherence	• Cultivate Heart Coherence: 8-week structured online learning and practice journey. • Integrate Sacred Geometry: Synchronizing fields with pyramids/sites using Geobiology and RNGs – Global Coherence Initiative. • Measure Impact: Collect data on human coherence indicators, environmental field variations, and psycho-social health. • Ensure Continuity: Support long-term communities with a replicable model.

The Unified Heart Field online learning and practice journey

April 20 – June 21, 2026

Participants will receive:
8 guided weekly video modules explaining both theory and practice

8 accompanied guided audio practices with specially developed sounds recorded at **432 hz**

Weekly live community zooms for practice, sharing, and building a coherent unified heart field together.

Weeks 1–4: Establishing internal alignment and individual coherence.

Week 1: Breathing Consciousness

Discover conscious breathing, grounding, and posture while practicing abdominal breathing.

Week 2: Communication Body - Heart - Brain

Explore heart-brain communication, balance the nervous and immune systems, vagus nerve, and practice boxed breathing.

Week 3: Managing Stress

Learn stress dynamics, auto-regulation, and cultivate inner calm via heart breathing to align heart-brain rhythms.

Week 4: The Knowledge of the Heart

Understand the heart's electromagnetic radiance and oscillating power, connecting with a regenerative emotion.

Weeks 5–8: Expanding resonance into the global collective field.

* **Week 5: The Expression of Emotions**

Discover the dynamics of emotions and cultivate regenerative heart-based expressions.

* **Week 6: Creative Visualization**

Learn about the heart's electro-magnetic field, bio-field interactions, and co-creation.

* **Week 7: The Heart's Intelligence**

Explore quantum physics and unity consciousness while practicing bonding and social coherence.

* **Week 8: The Unified Heart Field**

Learn about bio-photonic light emission, Pyramid electromagnetic fields, and ancient solstice traditions.

Global Convergence synchronized with the Summer Solstice.

Week 9 - Convergence
June 21, 2026

Onsite & online participation through live streaming.

A planetary moment combining **collective heart coherence** with a selected number of Pyramids and Sacred Sites.

Resonance rooted in the Heart

April 20 – June 21, 2026

& Live Journey in India:**

Gratitude to all team members

Dr. Newton Kondaveti, MBBS, MD & Dr. Lakshmi Newton, MBBS, MD are both the founders of Quantum Life University as a place where all metaphysical knowledge can converge to advance in conscious living.

Rajashekar and Sredevi Potluri are both founding trustees of Quantum Life University and the driving force behind its vision, organisation and logistics.

Engineer Anil Sinha, PhD is an Indian engineer, academic, and interdisciplinary researcher exploring the intersections of science, consciousness, and philosophy.

D.R. Kaarthikeyan is the President of the Foundation for Peace, Harmony and Good Governance, where he works to promote ethical leadership, social harmony, transparency, and values-based governance in India

Marika Verheijen is a global connector with over three decades of experience in conscious, humanitarian initiatives. She is the co-founder of UnitingPeople and Pyramid for Light Foundation, promoting heart-centred living.

Dr. Sangeeta Nehra is an Indian Ayurvedic medicine practitioner, Director in the AYUSH Department, Government of Haryana, and a faculty member at Sri Krishna Ayurveda College, Kurukshetra.

Shreans Daga is an Indian professional engaged in initiatives that combine conscious entrepreneurship, social impact, and visionary leadership.

Christine Bredel is a holistic facilitator and co-founder of UnitingPeople in France, where she supports individuals and groups in inner alignment and heart-centred personal growth through energy work and spiritual development.

Amena Bal is a visionary global leader, healer, and regenerative designer, harmonising inner and outer worlds, serving as Trustee and President of Global Ecovillage Network (GEN), a global alliance promoting sustainable, nature and community-centered living.

Mahiema Anand is an Indian documentary filmmaker who founded an independent production company to create documentaries focusing on spirituality, mysticism, the paranormal, and human evolution, often for international broadcasters.

Dr. Olivier Abossolo is a doctor, speaker, trainer, and researcher, and a pioneer of integrative medicine in France with over 25 years of experience.
